

Control Masters, Inc. Is Committed To Being A World Class Supplier Of Industrial Control Systems.

Our History

Control Masters has been a leader in Industrial Control System Integration since 1961. Our experience allows us to deliver the highest quality custom control solutions, specifically designed to satisfy your unique needs and specifications.

Our Performance Background

- Over 40 years of unmatched industry leadership
- Over 100 years of cumulative engineering staff experience
- Thousands of projects successfully completed in budget and on time

Our Services

- Design & Integration
- Consulting
- Control Panel Fabrication
- CAD
- Testing & Simulation
- Startup Support & Optimization
- Training & Documentation

Our Experience

- Industries
 - Food
 - Chemicals & Plastics
 - Utilities
 - Transportation/Stamping
 - General Industrial
- Applications
 - Process Control
 - Batching
 - Continuous Blending
 - General Motion Control
 - Power & Co-Generation
 - Bulk Material Handling
- Integration
 - Programmable Logic Controller (PLC)
 - Operator Interface and Supervisory Computer & Data Acquisition (HMI/MMI/SCADA)
 - Ethernet Networking
 - Coordinated Drive Systems
 - Multi-Axis Motion Control Systems
 - Custom Visual Basic/C/Database Applications

See what our experience can do for you!
